This event has been organized and presented by the Access to Care Committee of the Greenwich Health Improvement Partnership. This is a coalition of public, private and municipal agencies and groups, as well as private citizens. Our mission is to improve access to health care and health care information for all the people of Greenwich regardless of age, ethnicity, citizenry, religion, race, or socioeconomic status. This voluntary partnership emerged following the Community Health Assessment conducted in 2003 by the Community Advisory Board of Greenwich Hospital
